Top producing intermediary firm earned approval and highest marks from the Better Business Bureau

Roseville, CA – (October 3, 2019) Centurion 7 Business Advisors, a top performing business brokerage and intermediary firm, announced it was designated with an A+ rating with the Better Business Bureau (BBB).

“BBB ratings represent the BBB’s opinion of how the business is likely to interact with its customers. BBB seeks and uses information directly from businesses and from public data sources,” as stated on the [BBB website](#). “BBB assigns ratings from A+ (highest) to F (lowest).”

Founded in 1912, the BBB’s mission is to be the leader in advancing marketplace trust. Their focus continues to be to set standards, encourage and support best practices by engaging and educating the consumers and businesses, calling out substandard marketplace behavior, and creating a community of trustworthy business and charities. Integrity and performance are their two core values.
